From the President

Hello Friends,
I'm so pleased to see so many of you coming along to our events.
We couldn't have asked for a more beautiful autumn day to set off on a coach to the National Gallery of Canberra to see the Botticelli to Van Gough exhibition. It was a historically engaging exhibition. While at the gallery, some of us took the opportunity to see Know My Name, featuring Australian female artists from 1900 to now. If you missed it, Part Two of this inspiring exhibition is on later this year. Be sure to make a note to visit The National Gallery to see it.

It's been lovely to receive your feedback after a successful trip. This message came from members Jenny and John: "The exhibition itself was really great, but the organisation done by the FOH was beyond fantastic and made the day even better. We can't wait for the next excursion."

This month, we also had our first ART AFTER DARK event in the Gallery. Artist Kerry Toomey was invited to hold a Yarning Circle amongst the Gallery's Wuliwulawala: Dharawal Women Sharing Stories exhibition. We were enthralled by her discussion and detailed explanation of how she weaves her history and family stories into her art practice.

Cooler weather is approaching, but I hope it won't deter you from venturing out to the wonderful events we have planned. Coming up we have a series of artztalks with leading industry experts. These artztalks are always engaging and it's a wonderful way to spend a couple of hours feeding your mind and imagination. Our first talk is with Steven Miller Head of the National Art Archive at the AGNSW, on Saturday 17 July. See you at the Gallery,

Anne Tyrrell
FOH President

From the Gallery Director

Dear Hazelhurst Friends
We have been so heartened by the positive and moving responses to the exhibition Wuliwulawala (women) Dharawal Women Sharing Stories and the interest by our community in the associated programs such as the Yarning Circles. We are indebted to all the artists, members of the La Perouse community and all contributors for their generosity in sharing culture and stories. The associated Art Fest day was also a great success with the Blak Markets, Stiff Gins performance and the wonderful Gilli student dancers. It was of course enriched by this year's Friends on Show exhibition which showcased the terrific variety of talent we have in our midst, congratulations!

Our new exhibitions bring to Hazelhurst two of Australia's most important contemporary artists, Melbourne-based Christopher Langton and Sydney-based Caroline Rothwell have created new work for their immersive solo exhibitions. Christopher Langton's Colonies is larger than life and a somewhat topical exhibition about life-threatening diseases and infection. Caroline Rothwell's Horizon invites us to consider our relationship with the natural world. Both exhibitions are timely in our changing world and this is the first time the artists have exhibited alongside each other.

We are also very excited our Film Club has returned and this season presents a rich array of films to enjoy
Looking forward to seeing you at Hazelhurst

Belinda Hanrahan
Gallery Director/Centre Manager

What's In The Gallery Shop

For many years, local artist Norma Ikin has travelled to the outback to observe birds in their natural habitats. After her first bird-watching field trip, Norma was so inspired by what she saw, she enrolled in a watercolour course.

Norma began painting watercolour birds on cards to thank the driver and cook on her trips. Very quickly, Norma's cards became desired by her fellow travellers. This was all the encouragement she needed to pursue her newfound passion for painting birds in watercolour.

When she ventures to the outback, Norma records all her bird sightings in a field book she purchased after her very first bird watching trip. The book provides detailed information and inspiration of the areas Norma visits, and when she returns home, she creates beautiful original watercolour paintings of the birds she sees.

Norma's bird cards and prints can be purchased at the Hazelhurst Gallery shop and the Royal National Park shop at Audley.

What else is on around the Sutherland Shire

Artist Clair Cavanna in Bay Window Studio taken by Flore Vallery-Radot - my work in the background and foreground from Rhythm of the Land series of paintings. There are two elements to the Rhythm series of works 1. Rhythm of the Land and 2. Rhythm of Language. The premise of the Rhythm group of works is based on the idea that Rhythm creates movement. Movement creates change. Change creates endless possibilities.

Bay Window Studio

By Claire Cavanna

Bay Window Studio was born out of the COVID19 isolation period, unable to exhibit at my planned exhibition in March last year; I decided to display my work in our front window space which generated interest from people passing by during their daily isolation exercise routine.

This proved so popular with our local community, I decided to open the space for other artists to show their work which now provides an ever-changing gallery of artworks for people to view while passing by the window.

In 2020, Bay Window Studio exhibited the works of nine artists from a variety of locations including the Sutherland Shire and surrounding suburbs as well as the Northern Beaches, Hunters Hill and other areas.

It was, and still is a safe place to view the paintings through the glass meaning no physical contact, but with the restrictions lifted, I have opened the space for people to visit while maintaining a safe distance.
